We are committed to deliver you the best possible bespoke shoes. Therefore we will make everything possible that you enjoy the look and fit of your shoes.

For the first pair, we will make a pair of trial shoes. The whole process, from the measuring to the final pair takes around 3-4 months, depending on how fast we can visit your location.

We use the three classical shoemaking techniques for the making: **hand-sewn** (shoes are sewn by hand, after the English shoemaking tradition), **wood pegged** (after the Austrian tradition) or **double –sewn**, an old technique brought to perfection by the Maftei family.

Our signature shoes are the seamless Oxford (“Maftei One Piece” in patina) and the double sewn Norwegian.

Your shoes will come with standard shoe-trees, unless you specify the hand-carved shoe-trees made by us, after your last.

As custom in the bespoke world, we kindly ask for 50% deposit when placing your order.
